## SUMMARY CONWAY POLICE DEPARTMENT

The following summary of the Conway Police Department is respectfully submitted.

The foregoing chart shows the final report as taken from the monthly activity sheets of this department.

Total hours on duty represents the number of hours worked by all police officers. Complaints answered represent those handled by this department and often made necessary an officer working at unusual hours.

Arrests and summonses are actual complaints brought before the Conway Municipal Court. The greater portion of these arrests are for violations of our speed laws within the town limits. It has been the practice of this department to bring violators before the court for speed violations only when they have exceeded 50 m.p.h. within the town limits posted at 20 and 25 m.p.h. Warnings issued represent violations of minor infractions such as speed that is greater than reasonable and proper according to conditions, but less than 50 m.p.h. This also includes violations of stop signs, defective equipment and so forth.

Aids rendered represent helpful duties to unfortunate motorists such as obtaining gas, changing tires, answering fire calls, etc.

Accidents investigated represent only those where property damage or personal injury resulted and necessitated filing a report with the Commission of Motor Vehicles.

Mileage on duty represents the mileage covered by all police officers in the performance of their duties. No direct compensation is received by the police officers for the service of their vehicles.

Fines and sentences represent actual cash received for fines imposed by the court. Fines suspended are imposed by the court, but suspended at the good judgment of the court.

Value of recoveries represent return of stolen properties and savings effected by apprehension and detection.

Court costs represent the actual three dollar fee for each complaint and warrant. This sum is directly returnable to the town by the court at the end of the fiscal year.

Expenditures represent salaries of officers, equipment and miscellaneous items of upkeep.

The foregoing report is the result of a period of probation by the Conway Police Department. This trial period was agreed upon to decide whether or not a full time police organization would give the environs full time protection and economy if operated in a business-like manner.

A ratio of the foregoing report shows that the totals of fines actually imposed, value of recoveries, and court costs equal a sum of \$2,258.00. The total amount of actual salaries paid to all police officers is \$1,136.17. This ratio indicates that for every one dollar spent in salaries one dollar and ninety-eight cents (\$1.98) was returned through services of the officers.

Respectfully submitted,

RALPH V. GOULD,

Ass't. Chief of Police.

ALICE S. POLLARD  
Librarian

### To the Citizens of Conway:

In presenting the Library Report for 1941 acknowledgement should be made to the Conway Woman's Club for its gift of ten dollars, and to the several townspeople and summer guests who gave books and periodicals.

Mrs Evelyn Bolton, of Manchester, formerly of Conway, gave to the Library an oil painting of her great-grandfather, Samuel Stark. He was the son of the first Stark who settled in Conway, and for whom the Stark's Neighborhood was named. This picture is hung in the Main Hall and to the historically-minded is of great interest.

The exhibits this year proved to be of unusual interest; they were as follows:

Wood Cuts	Gordon E. Potter
Watercolors	Stevens Berge
New Hampshire Landscapes	The Sawyer Studio
Watercolors	Richard Chase
Camera Studies	Helen V Stelle

Commenting on the expenditures for the year, the \$238.25 spent for repairs included painting the outside woodwork, refinishing the floor in the stack room and installing new plumbing in the basement. Other items of expense are self-explanatory.

The Librarians, Miss Pollard at Conway, Mrs. Snow at Center Conway and Mrs McKeen at East Conway, report an increase in the circulation of books and periodicals.

Many times it has been stated, and it is still true that the greatest need of our libraries is books and more

books. Today as never before, there is an increased demand for all types of reading. Particular stress should be placed on reference material for both the student and adult.

May the citizens of Conway give generously to our libraries and make these institutions a source of power for right thinking and sane living.

Respectfully submitted,

RUTH A. KENNETT,

Secretary

## STATE OF NEW HAMPSHIRE

To the inhabitants of the School District in the town of Conway qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on Tuesday, the eleventh day of March, 1941, at 2 o'clock in the afternoon to act upon the following subjects:

1. To choose a moderator for the ensuing year.
2. To choose a clerk for the ensuing year.
3. To choose a treasurer for the ensuing year.
4. To choose a member of the school board for the ensuing three years.
5. To choose two auditors for the ensuing year.
6. To see if the district will vote to make any alteration in the amount of money required to be assessed for the ensuing year for the support of public schools, the payment of the statutory obligations, and payment on the bonded debt and interest thereon, as determined by the school board in its annual report.
7. To see if the district will vote to authorize the school board in the name of the district to contract with the trustees of Fryeburg Academy for instruction of pupils from East Conway, and to see what sum of money the district will vote to raise and appropriate for this purpose for the ensuing year.
8. To see what sum of money the district will vote to raise and appropriate for insurance.

9. To see what sum of money the district will vote to raise and appropriate for special repairs, alterations and equipment.

10. To see if the district will vote to authorize the school board in the name of the district to sell and convey all right and title which the district possesses in the lot and schoolhouse at South Conway.

11. To act upon any other business which may legally come before the meeting.

Given under our hands at said Conway this 24th day of February, 1941.

## REPORT OF SUPERINTENDENT

---

### To the School Board and Citizens of Conway:

Six changes were made in our teaching staff this year. Five of our staff of last year resigned and early in the summer occurred the death of Miss Frances Holt who had been for several years teacher of the third grade in Conway. Miss Holt was held in high esteem and affection by her pupils and fellow teachers. Miss Ward left to become principal of an elementary school in Penacook, Miss Stevens had plans for further pro-

fessional study, while Miss Finley, Miss Dean and Miss Young resigned on account of marriage. The vacancies in the high school were filled by the election of Miss Barbara Berry, graduate of the University of New Hampshire with an additional year of study and practice at Gorham Normal school, and Miss Mary Foster, a graduate of Keene Training school, with two years of experience, who took charge of the courses in Household Arts. Mr. Wayne Bowie, graduate of the three-year course at Gorham, became principal of the graded school in Conway, and the two vacancies in that school were filled by the election of Miss Patricia Mack and Miss Ruth Wells. The vacancy at North Conway was filled by the election of Miss Barbara Tracy. The three teachers last named are graduates of the Plymouth Normal School and had had previous experience.

In my report of last year I went into considerable detail as to possible changes which might be made in the North Conway grammar school by remodeling the second floor and permitting a better organization of the schools. The idea is just as good now as then but until the necessity is more urgent I feel like letting the matter rest. I should like very much also to divide the room used by the Conway grammar school, grades seven and eight, and have separate teachers for each grade. This was contemplated when the additions were built and the present arrangement is not intended to be permanent if the present enrollment continues. It is with some reluctance that the school board and superintendent have agreed that this should be delayed another year at least. We are governed by prudence rather than lack of faith. The general world situation tends to make us all cautious and suggests that for the present we give up some of the things which we would like and which in other circumstances would be justifiable.

We shall recommend the expenditure of a sum probably about \$400 to fireproof the ceiling of the boiler room in the North Conway School and for the installation of a firedoor from this room to the staircase.

It has been our intention from year to year to increase the facilities of the manual arts shop. The shop as originally equipped is a woodworking shop. We have added some machine shop equipment and hope to add more. At the end of this year there will be some boys who have had two years of manual training. For those who have aptitude we should like to offer next year an intensive course in machine shop work and in the following year a course in electricity. We ought to add each year a few hundred dollars' worth of equipment with the long range purpose of giving some real vocational training to selected groups. It is also within the scope of our hopes that we may eventually afford facilities for instruction in industrial and household arts to out-of-school youth and adults.

We are at present sponsoring a course for Out-of-school Youth in training for work in Defense industry. The federal government pays for the teachers, heat, light, janitor service, consumable supplies and has bought considerable new equipment. The work of administration is contributed by the superintendent, school board and local committee as a public service. Fourteen boys are enrolled in the course in metal work and fourteen in the course in truck and tractor operation and maintenance. Edward Davidson, Harlan Mason and Joe Byron are the instructors. The course has started well and will get better as we get more experience. The members of the local advisory committee are Paul Dixon, chairman, George Yeaton, George Morton, Bruce Gass, Fred Rancourt and Earl Shirley. The voluntary assistance rendered by Mr. Berry has been invaluable.

The boys in the Center Conway grammar school

are receiving instruction in woodworking and the girls in knitting. They are very much interested and are appreciative of the interest of Mrs. Edwin Neville who made this possible.

There is now available for the superintendent a spacious and adequate office in the Kennett High school. It is my purpose to keep all records, files and papers pertaining to school business in this office and to keep office hours here Monday forenoons for those who wish to see the superintendent on business. For this reason it will no longer be necessary to use my home as a public business office. Appointments for other times than Monday mornings should be made in advance.

JOHN H. FULLER,

Superintendent.

## REPORT OF HEADMASTER

**Mr. John H. Fuller, Superintendent of Schools**

I submit the following report of Kennett High school for the year 1940-1941, to date.

We have had a total registration of 226 to date, 107 boys and 119 girls, distributed as follows: Senior class, 20 boys and 25 girls, total 45; Junior class, 28 boys and 38 girls, total of 66; Sophomore class, 29 boys and 25 girls, total of 54; Freshman class, 27 boys and 30 girls, total of 57; post graduates, 3 boys and 1 girl, total of 4. These students are registered in subject matter courses as follows: English 234, Science 103, Mathematics 122, Shop 75, Home Economics, 80, Commerce 129, Social Science 172, Latin 64, French 52.

As usual we have suffered a considerable loss in numbers, as follows: post graduates, 1 girl; Seniors, 3 boys; Juniors, 3 boys and 1 girl; Sophomores, 3 boys and 2 girls; Freshmen, 4 boys and 2 girls; for a total

of 13 boys and 6 girls. It is hard to decide definitely just what causes this annual loss, for the town has provided unusual equipment and transportation, the teachers are helpful and friendly, a real effort is made to find work and play of interest, and within the capacities of each pupil. There may be some solution of which the school has not yet learned; but to a considerable extent I believe the fault lies with the parents. When asked, they say they want their children to go to school and to do creditable work, but they fail to insist upon such attendance and records.

Of these 19 pupils leaving school, 4 have moved from town and are attending schools in other states; 2 have left because of illness, either their own or in their immediate families; 11 lacked interest to make the effort required in high school attendance; and 2 were so badly outclassed that it seemed useless for them to continue their work.

The attendance record, as always, reflects the attitude of parents as well as of pupils. One family has 4 children in school, 3 of whom have had perfect attendance, and the fourth has been absent only one day. There have been 19,273 pupil days attendance, and 1,147 days absence. This is 94.4% average attendance and is good, considering the near-epidemic of colds in January; but a large part of the absences is confined to some 10% of the student body. There were 163 cases of tardiness, and again a comparatively small number are responsible for a large proportion of such marks. There were 45 pupils who were neither absent nor tardy during the first semester. They may well be proud of their record.

At mid-years a survey was made of students who had maintained a grade of 85% or better in 3, 4, and 5 courses; this being the grade required for certification to college. There were 20 pupils who had this grade

in 3 courses, 16 in 4 courses, and 16 in 5 courses; or a total of 52 pupils in 204 courses. A considerable number had earned this grade in one or two courses, but not so many as one might expect. There were 62 pupils who failed in 101 courses. With few exceptions these failures were the result of lack of effort and not lack of ability.

Mr. Seidenstuecker has organized classes in physical education this fall, and under his direction and with the help of Miss Berry and Mr. Davidson, the boys and girls have been given opportunity to take part in team sports such as basketball and football. They have also had track, ping pong, horseshoes, volley ball, and other games. A surprising number of our boys and girls have had trouble in making social contacts, and this work has been particularly valuable for them. We have had a number of requests for excuses from classes, and almost without exception the requests come from the boys and girls who most need this opportunity.

For extracurricular activities aside from athletics, which have received enough publicity, we have the Girl Reserves, and the Hi-Y Club, with programs of study, improvement and social activities; the dramatic club, a hobby club giving plays from time to time, and presenting a major play once a year; the K Club, an organization intended to supplement the athletic activities; the Latin and Scribunal Clubs, intended to add interest and point to classroom work in Latin and Commerce; the Camera Club, a hobby club which is doing considerable work in taking, developing, enlarging and composing pictures. Mrs. Seidenstuecker has organized a glee club as a hobby, not with the purpose of studying the mechanics of music.

The people are familiar with the work of the Industrial Arts and of the Home Economics departments, from public exhibitions and visits. We believe the work here has been outstanding.

I have been pleased in making a partial survey of the educational progress of our graduates and former students of the last 4 classes, to note that we have 14 students at New Hampshire University, 11 in Schools of Commerce, 7 in Schools of Nursing, 3 at Tilton Junior College, 3 at Teacher Colleges, 2 at Brown University, and pupils at St. Regis, Bowdoin, Hobart, Northeastern, Radcliffe, Syracuse, University of Vermont, Wellesley, Exeter Academy, Green Mountain Junior College, Our Lady of Mercy Convent, General Electric School, and Rhode Island School of Art.

The general attitude and spirit of the school is good, and the teaching corps is outstanding in ability, enthusiasm and co-operative effort.

Respectfully submitted,

E. W. McKEEN,

Headmaster

### REPORT OF SCHOOL NURSE

A summary of the medical inspection for the year ending June 1940 appears in Table III of this report.

It has been customary to prepare and publish at this time a partial report for the current year beginning in September. It is not, however, possible to prepare such a report this year. Miss Harriet M. Curren who has served us efficiently since 1928 sustained a severe injury by a fall a few weeks before the Christmas vacation and has been hospitalized since that time. For that reason the detailed monthly reports for November and December are not available. At the present time Miss Curren is progressing favorably but will not be able to return to her work for an indefinite period.

The school board has engaged Mrs. Hester Bemis to carry on the work. Mrs. Bemis is doing a very ex-

cellent and satisfactory job. She is a graduate of the Peter Bent Brigham hospital, and from the Public Health course in Simmons college. She has had one and a half years of experience in public health work in Augusta.

The annual medical examination has been completed in Kennett High school, the Conway graded schools, West Side and Center Conway. Examinations of ears and eyes has been or is being made in the other schools and the examination by the physician will be made soon. The examining physicians are Dr. C. E. Smith and Dr. John Z. Shedd.

JOHN H. FULLER,  
Superintendent.
